

## INFORMATION FROM OUR HERB SUPPLIERS re SHORTAGES

The present shortage of herbs is to do with the  
Covid crisis.

Unfortunately we have had many deliveries and  
containers cancelled and a lot of set backs on  
raw materials.

A few of our suppliers are short staffed, so herbs  
and powders are on an extremely long  
turnaround at the moment because they have  
fewer people harvesting the crops.

In addition to this, a lot of our products are only  
readily available once a year, so once we have  
run out of stock, we have to wait until the new  
harvest.

Our purchasing team are working hard to try  
and replenish as much stock as possible.

We have lots of products on order. Expected  
time of delivery is not firm as we are living in  
uncertain times.

We apologise for the inconvenience this may  
cause.
